Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 30 days MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1642

DETAILED ACTION

1. Claims 5-11, 13-16, 18-21, 23, 24, 26-34, 36-46, 48-62, 64, 65, 67-79, and 81-85 have been canceled. Claims 1-4, 12, 17, 22, 25, 35, 47, 63, 66, 80, 86, 87 and 88 are pending. Claim 63, dependent upon canceled claim 62, is withdrawn from consideration.

Election/Restriction

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-4 and 22, drawn to isolated nucleic acids and kits comprising agents which bind to isolated nucleic acids, classified in class 536, subclass 23.5.
 - II. Claim 12, drawn to a polypeptide, classified in class 530, subclass 350.
 - III. Claim 17, drawn to an isolated polypeptide which selectively binds the polypeptide of Group II, classified in class 530, subclass 387.1.
 - IV. Claims 25, 35, 47, 66, 80, 86, 87 and 88, drawn to methods of detecting vasa in a sample, methods of detecting and subtyping tumors of germ cell origin, classified in class 435, subclasses 6 and 7.1.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions of Groups I and II are structurally and functionally different products which are made by different methods and have different uses. The examination of all groups would require different searches in the U.S. Patent Shoes and the scientific literature and would require the consideration of different patentability issues.

Art Unit: 1642

Inventions I and IV are related as product and process of use. Inventions III and IV are also related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the process of Group IV is practiced with either the polynucleotide of Group I or the antibody of Group III. Further, the polynucleotide of Group I can be used in a process to make a non-human transgenic animal and the antibody of Group III can be used in a process to raise an anti-idiotypic antibody. .

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and recognized divergent subject matter and because the searches required for the groups are not co-extensive, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently

Art Unit: 1642

named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Karen Canella whose telephone number is (703) 308-8362. The examiner can normally be reached on Monday through Friday from 8:30 am to 6:00 pm. A message may be left on the examiner's voice mail service. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Anthony Caputa, can be reached on (703) 308-3995. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-0196.
